XML

THE CHARLES F. GOLDFARB DEFINITIVE XML SERIES™

THE XML HANDBOOK™ 5th EDITION

"This book is an excellent starting point where you can learn and experiment with XML. As the inventor of SGML, Dr. Charles F. Goldfarb is one of the most respected authorities on structured information."

—From the Foreword by Jean Paoli, Microsoft XML architect and co-editor of the W3C XML specification

The proven resource for the world of XML and Web services—over 100,000 copies in six languages!

Developers, architects, managers, and consultants rely on its technical accuracy, accessible writing style, and broad and deep coverage.

Learn XML 154 pp.

Start by learning what XML is, why it came to be, how it differs from HTML, and the handful of vital concepts that you *must* understand to apply XML quickly and successfully—in your business and in your code. Learn when to use data or documents, how to decipher misleading industry jargon, and the key ideas of XML programming.

Use XML 564 pp.

Experience XML through illustrated explanations of technologies, tools, and applications: Web services (SOAP, REST, rich clients), security, integration, content management, databases, conversion, syndication, telephony, wireless, customization, portals, office suites, graphics, e-commerce (B2B, B2C, EDI, exchanges), publication (WYSIWYG, XSL, DSSSL), Semantic Web, and over 300 industry applications!

Master XML 406 pp.

Master the details from friendly, in-depth tutorials: XML (the full language: 1.0/1.1, namespaces, entities, DTDs), XML Schema (XSDL, datatypes), XPath 1.0/2.0/XQuery, XSLT 1.0/2.0, XSL-FO, InfoSet, VoiceXML, Web services (WSDL, UDDI), compression, XLink, XPointer (framework and schemes), and Semantic Web (topic maps, RDF). Plus: Over 250 acronyms defined!

About the Authors

CHARLES F. GOLDFARB is the father of XML technology. He invented SGML, the Standard Generalized Markup Language on which both XML and HTML are based. You can find him on the Web at www.xmlbooks.com.

PAUL PRESCOD is a leading XML software developer, trainer, and consultant. He was a member of the W3C group that developed XML.

With participation by industry leaders, including experts from some of our sponsor companies:
